Szymon Dolnik

Front-End Developer

```
haxikowy.skills = {
  javascript: [ES6+, React.js, Redux],
  css: [CSS3+, SASS],
  npm,
  Git,
  Github,
  REST,
  Responsive Web Design,
  BEM,
  HTML,
}
```

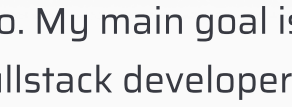

tetris

Known across the world tetris game. I've added points system from NES version.

Game works also on mobile, I've added keyboard to play it, you can even hold button to repeat action, as it is on desktop. Enjoy playing it, points are saving to local storage.

 code. live.

Hi! I'm Szymon, thanks for checking out my portfolio. My main goal is to become sucesfull fullstack developer. Now I'm mainly focusing on front-end side. I'm continuously developing my programming skills since 2019' autumn. I like drinking coffe, petting my dogs, gaming and last but not least programming! 😊
